

LED Street N Series

A5

·Universal Application

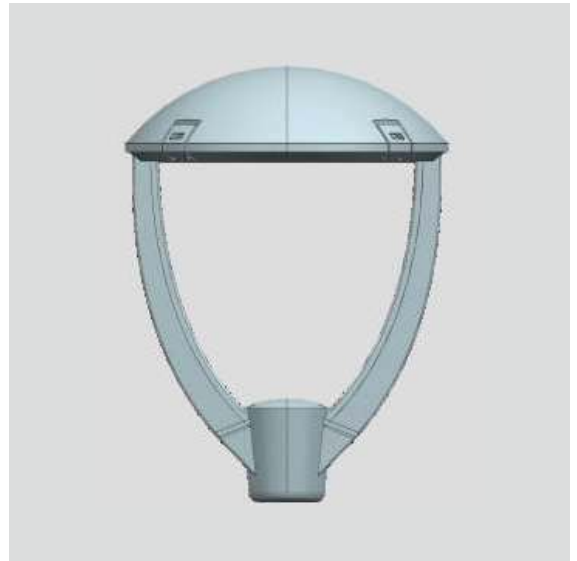

A5
LED Street N Series

1.Features

- Lifetime over 50.000 hours.
- 5 Years warranty
- Environmentally friendly alternative to traditional lighting.
- Resistant to ambient temperatures up to 60°C.
- High Power LEDs.

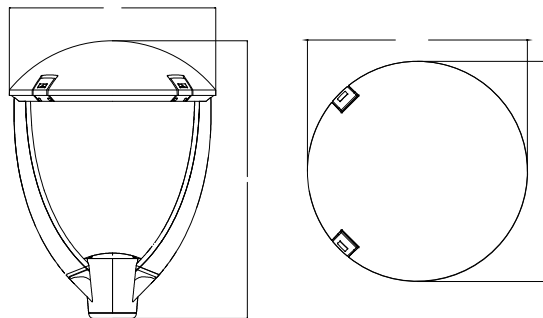

2.Parameter

Item Code	Power	Lumens	Lm / W
LU-STN-20W	20	2500	125
LU-STN-30W	30	3750	125
LU-STN-40W	40	5000	125
LU-STN-50W	50	6250	125

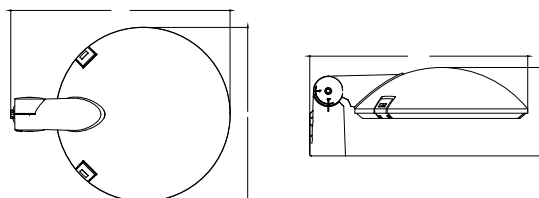

3. Technical Specifications

Applications:	Roads, cycle paths, residential areas, parking lots, industrial sites
Mounting:	Adjustable bracket
Light Source:	Integral LED Module
Color:	Grey/Black/White
Input Voltage:	90-305VAC 50-60HZ / 170-305VAC 50-60HZ
Ambient temperature:	-30°C ~ +45°C
Watts:	20W, 30W, 40W, 50W
Luminous Efficiency:	125Lm/W
Driver:	Meanwell
Lumen maintenance:	> 50,000hours
Dimming	DALI/0-10V/PWM
Protection Rate:	IP66
IK class:	08
Colour Temperature:	4000k
Warranty:	5 years

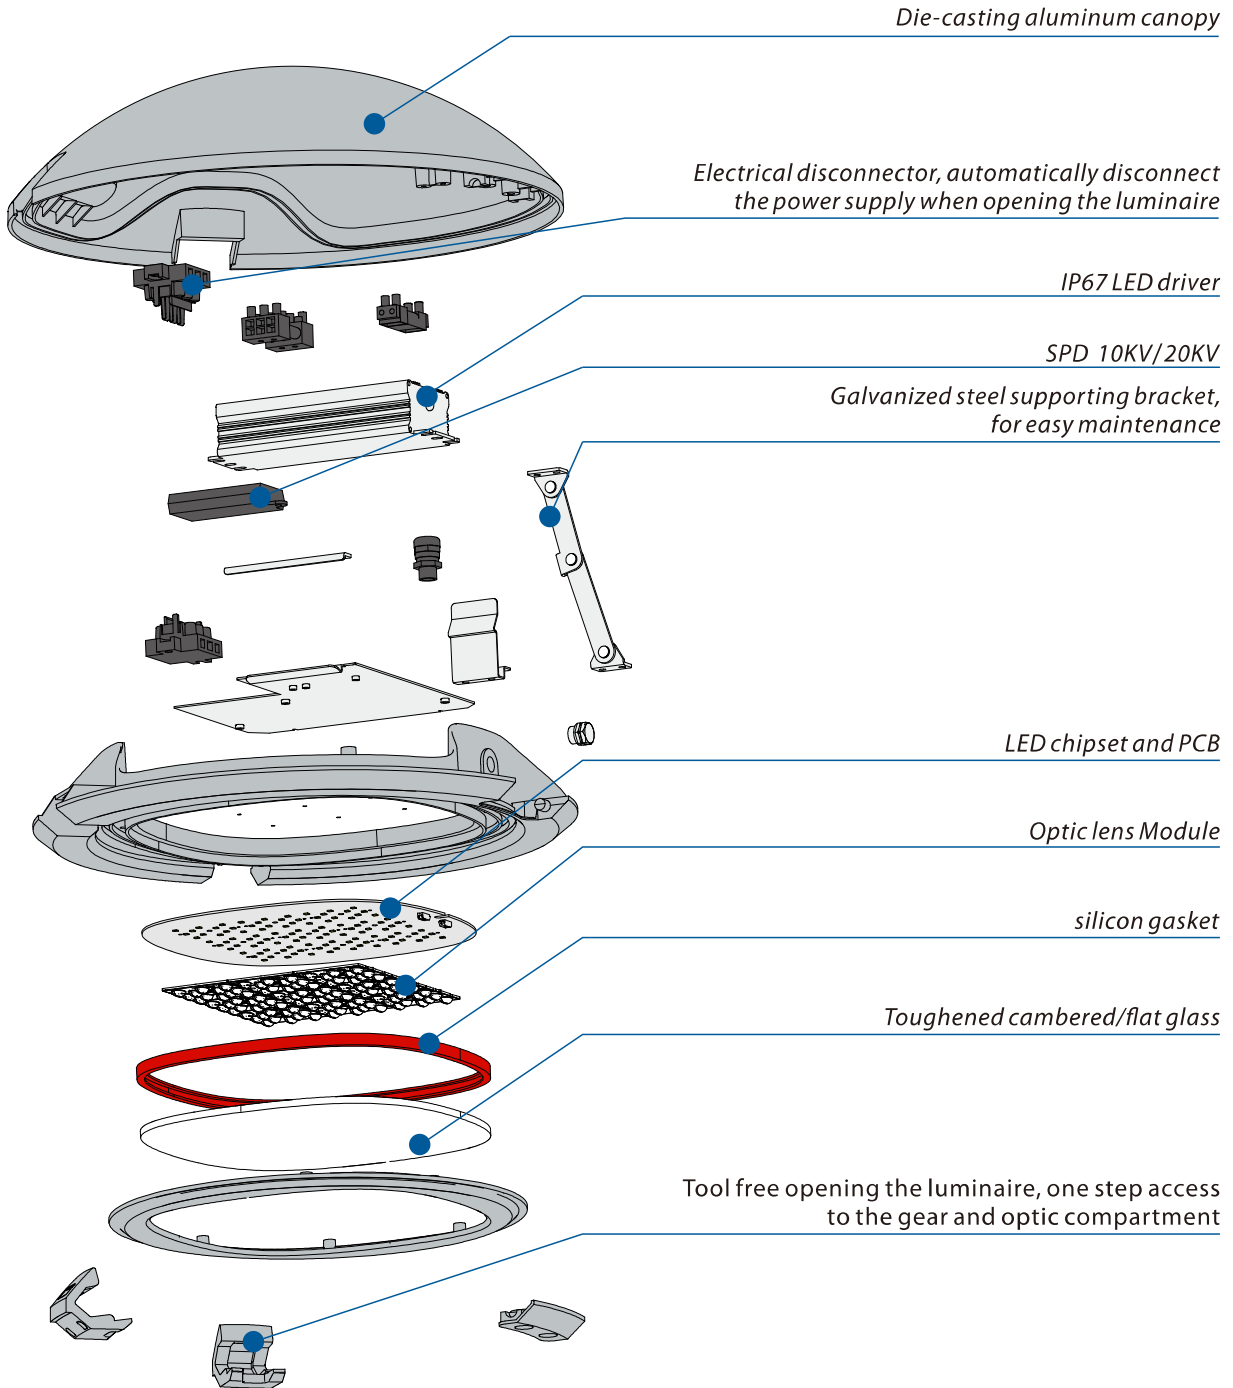

4. Product Dimension

NA Series

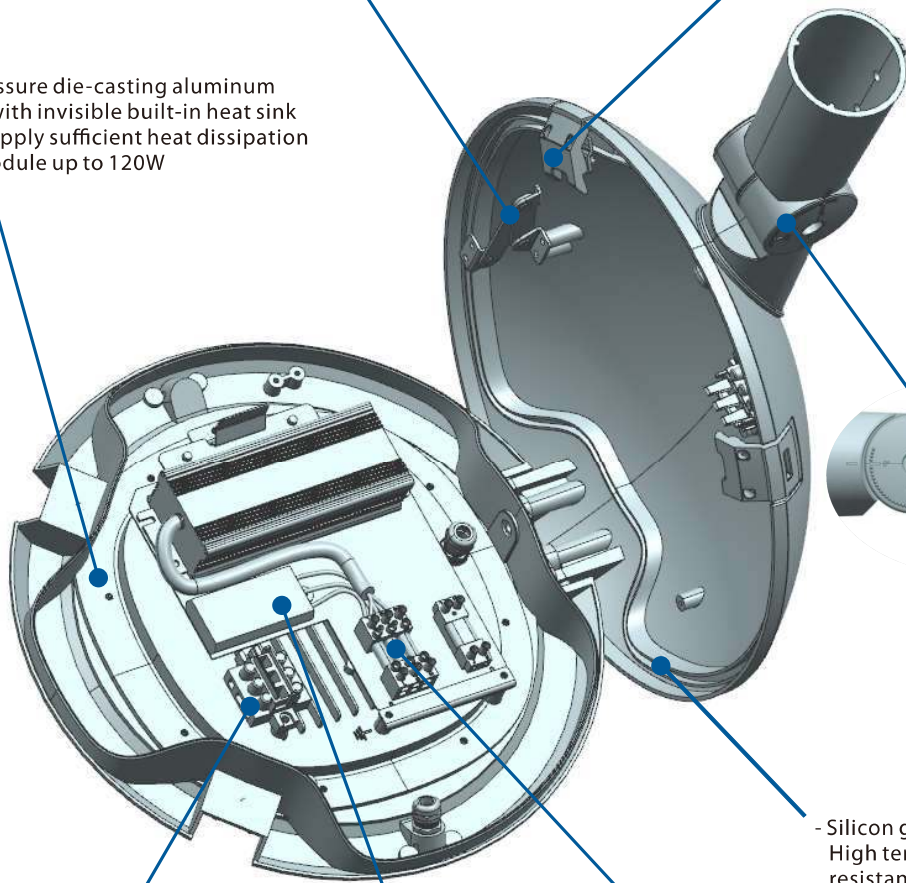

NB Series

- Galvanized steel supporting bracket, for easy maintenance

- Tool free opening the luminaire, one step access to the gear and optic compartment

- High pressure die-casting aluminum housing with invisible built-in heat sink curves, supply sufficient heat dissipation for led module up to 120W

- Silicon gasket
High temperature resistance

- plug-and-play terminal

- Electrical disconnecter, automatically disconnect the power supply when opening the luminaire

SPD 10KV/20KV
